

Listing of the Claims:

The following is a complete listing of all the claims in the application, with an indication of the status of each:

1 Claim 1 (Original). A cellular phone capable of displaying an in-absence
2 incoming call message on a display if a user of said cellular phone does not
3 answer an incoming call, said cellular phone comprising:
4 a timer for starting counting, at the same time as the in-absence
5 incoming call message is displayed, a preselected period of time set therein
6 beforehand; and
7 reporting means for alerting the user to the incoming call when said
8 timer counts up the preselected period of time.

1 2 (Original). The cellular phone as claimed in claim 1, further comprising
2 canceling means for canceling the in-absence incoming call message when
3 the user answers the incoming call before said timer counts up the
4 preselected period of time.

1 3 (Original). The cellular phone as claimed in claim 1, wherein said
2 reporting means comprises a speaker.

1 4 (Original). The cellular phone as claimed in claim 1, wherein said
2 reporting means comprises a vibrator.

1 5 (Original). The cellular phone as claimed in claim 1, wherein said
2 reporting means comprises a light emitting diode.

1 6 (Original). The cellular phone as claimed in claim 1, wherein said
2 reporting means comprises a combination a speaker, a vibrator and a light

3 emitting diode.

1 7 (Original). A cellular phone capable of displaying an in-absence
2 incoming call message on a display if a user of said cellular phone does not
3 answer an incoming call, said cellular phone comprising:
4 a timer for starting counting, at the same time as the in-absence
5 incoming call message is displayed, a preselected period of time set therein
6 beforehand;
7 reporting means for alerting the user to the incoming call when said
8 timer counts up the preselected period of time; and
9 repeating means for repeatedly alerting the user to the incoming
10 call by repeatedly reporting said incoming call and repeatedly counting the
11 preselected period of time.

1 8 (Original). The cellular phone as claimed in claim 7, further comprising
2 canceling means for canceling the in-absence incoming call message when
3 the user answers the incoming call before said timer counts up the
4 preselected period of time.

1 9 (Original). The cellular phone as claimed in claim 7, further comprising
2 canceling means for canceling repetition of a report of the incoming call
3 when the user answers the incoming call before said timer counts up the
4 preselected period of time.

1 10 (Original). The cellular phone as claimed in claim 7, wherein said
2 reporting means comprises a speaker.

1 11 (Original). The cellular phone as claimed in claim 7, wherein said
2 reporting means comprises a vibrator.

1 12 (Original). The cellular phone as claimed in claim 7, wherein said
2 reporting means comprises a light emitting diode.

1 13 (Original). The cellular phone as claimed in claim 7, wherein said
2 reporting means comprises a combination of a speaker, a vibrator and a
3 light emitting diode.

1 14 (New). The cellular phone as claimed in claim 1, wherein reporting
2 means for alerting repeatedly the user to the incoming call when said timer
3 counts up the preselected period of time until the user of said cellular
4 phone cancels said in-absence incoming call message on said display.

1 15 (New). The cellular phone as claimed in claim 7, wherein said repeating
2 means is alerting the user to the incoming call by repeatedly reporting said
3 incoming call and repeatedly counting the preselected period of time until
4 the user of said cellular phone cancels said in-absence incoming call
5 message on said display.
